SUMMARY

Front-end developer with two years of experience building fast, accessible and responsive websites. I focus on clean layouts and getting small details right, and I am open to freelance and full-time roles.

SKILLS

HTML, CSS, JavaScript

PROJECTS

Movie Hub
A low-expense paid movie site. Cut expenses by 70% and introduced a library of genres to choose from.

Movie Hub, Dark Edition
A second pass on Movie Hub in a dark theme, with a full-bleed poster.

Finance Dashboard
An admin dashboard layout with summary cards and a transactions table, built to make daily payment data easy to scan.

Coffee Shop Landing Page
A product-led landing page for a coffee brand with bold hero copy and two calls to action.
